

REMARKS

New claim 10 is added. Claims 1-10 are pending in the present application. No new matter is introduced

In response to the Restriction Requirement dated March 14, 2008, Applicant respectfully submits that Groups I and II are both directed to pre-fabricated panel assemblies that can be easily connected to one another, the assembly being configured to connect to a structure. Accordingly, the subject matter of the claims are sufficiently related to prevent undue examination burden if both groups are retained in the present application. It is therefore respectfully requested that the restriction requirement be withdrawn. All pending claims are therefore maintained in the present application. Should the Examiner not withdraw the restriction requirement, the Applicant elects claims 1-8 and 10 for further prosecution in the present application, without prejudice to future prosecution of the non-elected claims.

Respectfully submitted,
